LIVE EDGE

LIVE EDGE

STOCKED IN WAREHOUSE

LIVE EDGE FINISH

OIL RUBBED BRONZE

Live Edge Coffee Table
NC6860CT
Size: 44" x 28" x 18" ht.

Live Edge End Table
NC6860ET
Size: 26" x 26" x 23" ht.

Live Edge Dining Table
NC6860DT
Size: 84" x 42" x 29.5" ht.

DESIGNER'S TIP:

- Live edge tables pair beautifully with Aspen, Jacobean, and Husk resin finishes.
- Substitute a woven coffee or end table with a live edge table to add texture and visual interest.
- The stunning dining table provides contrast to darker-toned dining chairs.

UNIVERSAL (NC415)

TEAK

All of our easy-to-assemble KD teak product is **SOLID TEAK** from Indonesia

PLANTATION TEAK

- Our Plantation Teak products are plantation-grown and harvested from mature trees that are 50-60 years old
- This line of teak is part of a replenished forestry program, where a new tree is planted for each one that is harvested.
- Our Plantation teak is oven- or air-dried for moisture control.

RECLAIMED TEAK

- Reclaimed Teak products contain wood that has been reclaimed from old structures including barns, houses or flooring. The wood is remilled after reclamation.
- Because the wood is reclaimed, it has already been aged and dried so there is no need for an additional step to control moisture.
- Plugs in the planks due to nail holes or age are **NORMAL** and are considered to add to the character of the reclaimed teak product
- A wire wheel is used to distress the reclaimed wood to enhance the grain and provide a more rustic finish.

HARDWARE

- The hardware on our teak furniture is zinc-coated steel that has been plated in brass. The zinc helps minimize corrosion, steel was chosen for strength, and brass for its luster.

USE & CARE

- You may choose to allow your teak to weather to a beautiful silver-gray patina or treat it twice a year to preserve the teak's golden finish.
- Should you choose to treat your teak, we recommend using an oil or sealer specifically made for teak. Using permanent sealing methods such as polyurethane or varnish disrupts the natural moisture control process and may result in cracked wood or finish.
- Teak may be cleaned using a wood cleaner or lightly sanded with 600 (or higher) grit sandpaper.
- We recommend that you leave your teak products outside year-round (under a furniture cover in the off-season), but if that is not an option, teak must be stored in a **COOL, DRY** place over the winter.

NORTHCAPE FIRE

NorthCape Fire

Any table can become a fire table

Because not all homes or apartments are made with fireplaces, our broad array of "firespaces" include lanterns and torches for both indoor and outdoor uses. These beautiful fire features are smart, sensible, beautiful, flexible and green. All are engineered to be completely portable; no special ventilation components are required. Further, all are designed and manufactured in the USA. Powering each of our impeccably designed firespaces is the SunJel fire gel fuel canister. SunJel is odorless, smokeless and fume-free, which allows for outdoor and indoor operation alike. Our family of products brings together a unique combination of exceptional design, quality craftsmanship, and environmental awareness. The resulting firespaces help friends and family to gather in a warm, captivating ambiance.

Guests and family will be charmed by the Elements Collection's contemporary lines and organic materials including accents of real river rock.

The Moroccan Collection brings charm and enchantment into your outdoor space with vibrant colors and patterns pulled from a land far away.

The Hampton Collection's metallic powder coated steel and clear, tempered glass hurricanes capture and reflect flickering flame throughout the environment.

The Sonoma Collection emanates warmth with hardwood construction which forms a rich, weathered brown-gray patina over time.

The Georgian Collection features traditional fluid lines and arching, architectural lids finished in classic bronze.

Antebellum charm meets modern construction and safety standards in the Kentucky Collection.

Standing 8 ft. tall x 5.5 ft. wide, this impressive display commands attention and gives your sales team a great opener to begin a conversation about the NorthCape Fire product line. Both sides feature full color graphics and shelves to display your choice of firespaces as well as SunJel fuel. Our new store displays will be sent to you FREE with your NorthCape Fire order of \$3000 or more, or may be purchased for \$300 with orders less than \$3000.

FABRIC CUBES

- 18" cubes filled with polystyrene beads
- Quick-dry panel on the bottom for drainage
- Made in the USA
- Add versatility and style to outdoor spaces
- Use as extra seating, ottoman or side table
- Use 2 to pair with a loveseat or sofa
- Available in your choice of premium outdoor fabric

QUICK SHIP

- Our quick ship program allows dealers to carry less inventory while offering expanded options to customers
- Receive cushions in 10 working days or less from the date your order is received
- Domestically produced in our state-of-the-art facility using only 100% solution-dyed Sunbrella fabrics
- Quick ship cushions are available for all of the furniture collections in our warehouse program
- Throw pillows, umbrellas, and furniture covers are also available in our quick ship program
- A variety of 100% solution-dyed Sunbrella fabrics are offered for each quick ship collection, and many of our quick ship cushions include welt, button, and/or reticulated foam.

Please read each collection's description for construction details.

About Sunbrella Fabrics

Enduring Color

- UV resistant; colors stay strong and vibrant under intense sunlight
- Bleach cleanable and Chlorine Resistant

Sumptuous Hand

- Sunbrella fabrics are soft, inviting & durable

Dramatic Effects

- Sunbrella is available in hundreds of solids, stripes and textures as well as exquisite decorative jacquards

Worry Free

- Stain and mildew resistant
- Easy to clean

The Sunbrella Brand – Sunbrella is the most recognized and trusted name in performance fabrics for the Casual Furniture, Awning, Marine, and Automotive markets for over forty-five years.

Fade-resistant – Sunbrella fabric is unmatched in resistance to fading and the degrading effects of sunlight.

Colorfastness – Sunbrella fibers are saturated with highly UV stable pigments. Traditional dyeing methods only add color to the fiber exterior. Sunbrella fabrics' performance characteristics are an integral part of the fabric, not an applied finish that would wash off over time. Think of a carrot versus a radish.

Durable – Sunbrella fabric retains its strength after years of cleaning and weathering.

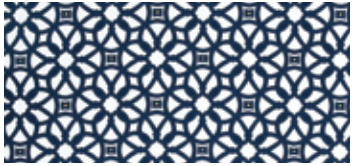

Cleanable – Mild soap cleans most common stains. Using bleach or solvents for tough stains will not affect Sunbrella fabric, but don't try this with other fabrics.

Luxurious touch – Sunbrella fabric has the soft hand of spun cotton for exceptional comfort.

Quality – Sunbrella fabric utilizes the finest raw materials, an ISO 9000 certified vertical manufacturing operation, on-site testing labs, and over forty-five years' experience with performance fabrics.
