LANE VENTURE

Our products are specifically designed and manufactured to withstand nature’s elements. High quality, weather-resistant materials and finishes include powder-coated aluminum, woven synthetic wicker, premium grade A teak and outdoor upholstery.

The standard cushion construction for all LANE VENTURE collections is a fiber coil core construction. The fiber coil cushion style has drain-through technology which allows water to flow in and out quickly. The all fabric casing with foam core cushion construction is available as an option and will feature fabric on top and bottom of seat cushion. Cut and sewn in Newton, NC, LANE VENTURE cushions showcase the superior craftsmanship and cutting standards for which LANE VENTURE is known and are available in all LANE VENTURE premium solution-dyed acrylic fabrics.

LANE VENTURE CUSTOM CASUAL

Using only the finest American made raw materials, the LANE VENTURE CUSTOM CASUAL product line is proudly made in the USA. This dedication to superior manufacturing ensures that we offer the highest quality and most structurally sound aluminum product in the industry. Our assortment of premium powder coated finishes offers a wide range of customization on each of our LANE VENTURE CUSTOM CASUAL collections.

Cut and sewn in Newton, NC, LANE VENTURE CUSTOM CASUAL cushions showcase the superior craftsmanship and cutting standards for which LANE VENTURE is known. Available in all LANE VENTURE premium solution-dyed acrylic fabrics, the fabric cushion casings will then be sent to our facility in Haleyville, AL where they are filled and paired with their corresponding Custom Casual Aluminum frame and packaged for shipment. The finished piece will ship complete from Haleyville, AL.

Using only the finest American made raw materials, the LANE VENTURE Custom Casual product line is proudly manufactured in the USA. This dedication to superior manufacturing ensures that we offer the highest quality and most structurally sound aluminum product line in the industry. Every LANE VENTURE Custom Casual frame goes through an elaborate, multi-step, pre-treatment procedure before being individually completed in a state-of-the-art powder-coat finishing process. This pre-treatment step assures proper coverage over the entire frame for a clean, durable look that will provide many years of enjoyment.

LANE VENTURE aluminum products are constructed of superior extruded powder-coated and cast aluminum. Fixtures and jigs specially designed for each collection are used to assure uniform frame sizing during production. Such measures of quality ensure strong, durable and comfortable frames.

Every aspect of LANE VENTURE outdoor upholstery features elements that allow continuous airflow, quick-drying, performance and durability. Each interlocking engineered frame is built in the USA and constructed from multiple layers of premium outdoor Baltic birch plywood and sealed in an outdoor finishing material. Stainless steel hardware is used in all construction points.

As a casual industry leader, LANE VENTURE offers outdoor fashions made to inspire homeowners everywhere, and the beautifully designed selections include the work of several designers and licensing partners. The Ernest Hemingway collection embodies the eclectic, well-traveled and elegant lifestyle that is as unique as the character of the original icon that inspired the designs. Explore the broad array of well designed collections by LANE VENTURE to create your own original outdoor space.
LANE VENTURE uses only the finest grade of slow-growing, plantation raised teak for its beautiful furniture. Considered the most valuable tropical hardwood because of its high natural oil content, we employ best-in-class construction techniques that include kiln drying, finger joinery and box joints. Together, all of this ensures that your product will withstand prolonged outdoor exposure. All of our teak is responsibly harvested from reforested teak plantations.

Each piece of our woven product is hand woven by experienced artisans over a strong powder-coated aluminum frame, and LANE VENTURE products feature the highest grade of durable, UV-resistant polyethylene (PE) fibers. Fixtures and jigs specially designed for each collection are used to assure uniform frame sizing during production.

All of our decorative toss pillows are made with an encased 100% WeatherMaster gel fiber that is weighed and hand-filled to exacting standards required of outdoor products. This WeatherMaster gel fiber has a “down-like” feel and hand. All of our special order pillows are available in a variety of sizes and can be embellished with self-welt, contrasting welt, and COM fringe and cord options. Pillows are standard with zippered closure.

Full of vibrant colors and graphic patterns, the vast assortment of leading edge stylish and exclusive fabrics from LANE VENTURE will bring a fresh perspective to creating personal style for any outdoor setting. Designed to be cleanable and durable for many years of enjoyment, 100% solution-dyed acrylics by well-known brands such as Sunbrella™ and Outdura™ set the standard for performance in outdoor fabrics. Offering superior resistance to mold, mildew and fading from normal exposure to the elements, fabrics from LANE VENTURE will inspire you to live outdoors with confidence and style.

Pillow finished with flange edge.
Bold mitering designs turn ordinary stripes into something uniquely custom for any outdoor space. We offer 6 mitered designs for square pillows. Each is available as 20” or 24” size. We offer 1 design for kidney pillows. Available sizes are 12” x 20” and 12” x 24”. You may order these as single pillows or in pairs. Please note that the miter design will only appear on the face side of the pillow. Our mitered pillow styles must use a balanced stripe for the best appearance.

SLING FABRICS

With sophisticated textures that offer durability and easy maintenance, our sling fabrics offer an array of fashionable color choices that will coordinate with our complete selection of LANE VENTURE CUSTOM CASUAL powder-coated aluminum finishes. Well-known brands such as Phifertex® and Textilene® set the standard for beauty and exceptional performance while offering superior resistance to mold, mildew and fading from normal exposure to the elements.
COLLECTIONS
PRODUCT CARE

FRAME CONSTRUCTION
Each piece is constructed by experienced artisans. Aluminum products are constructed of superior extruded and cast aluminum. Woven wicker components are hand-woven over powder-coated aluminum frames. LANE VENTURE products feature the highest grade of durable aluminum and UV-resistant polyethylene (PE) fibers. Fixtures and jigs specially designed for each collection are used to assure uniform frame sizing during production. Such measures of quality ensure strong, durable and comfortable frames.

FINISH
By combining differing textures and unique colors during the finishing and weaving process, LANE VENTURE is able to achieve a unique richness and depth that gives each collection the look and feel of a natural product and unique finish.

CARE & MAINTENANCE
Minimal maintenance is required to keep your furniture looking fresh. Periodically wash with soft cloth, mild soap and water. Rinse well. Dry with a soft towel or let air dry. Avoid harsh abrasive cleaners.
FRAME CONSTRUCTION

FINISH
Protected by the latest powder-coat finish technology, all LANE VENTURE finishes are applied over premium grade aluminum. Continuous testing for the life of a collection in our on-site weathering facility allows us to develop maximum protection from the effects of sunlight, temperature and environmental factors.

CUSTOM CASUAL ALUMINUM PRODUCT CARE

FRAME CONSTRUCTION
Using only the finest American made raw materials, the LANE VENTURE Custom Casual product line is proudly manufactured in the USA. This dedication to superior manufacturing ensures that we offer the highest quality and most structurally sound aluminum product line in the industry.

FINISH
Every LANE VENTURE Custom Casual frame goes through an elaborate, multi-step, pre-treatment procedure before being individually completed in a state-of-the-art power-coat finishing process. Protected by the latest powder-coat finish technology, you can be assured that it will remain consistent for many years. Continuous testing allows us to develop maximum protection from the effects of sunlight, temperature and environmental factors.

CARE & MAINTENANCE - FRAMES

FRAME CONSTRUCTION

Every aspect of LANE VENTURE outdoor upholstery features elements that allow continuous airflow, quick drying, performance and durability. Each interlocking engineered frame is built in the USA and constructed from multiple layers of premium outdoor Baltic birch plywood and sealed in an outdoor finishing material. Stainless steel hardware is used in all construction points.

CARE & MAINTENANCE

Regular cleaning is the best way to keep cushions and fabrics looking good. Periodically brush off dirt before it becomes embedded in the fabrics and wipe up spills immediately for best results. When you have a new stain, try this cleaning method first.

• Blot (don’t rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge.
• Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water: use a sponge or very soft bristle brush to lightly agitate the stain.
• Rinse the fabric thoroughly to remove all soap residue.
• Air dry. DO NOT PUT CASING OR SLIPCOVER IN A DRYER.
PRODUCT CARE
OUTDOOR UPHOLSTERY
TEAK
PRODUCT CARE

FRAME CONSTRUCTION
LANE VENTURE uses only the finest grade of slow-growing, plantation raised teak for its beautiful furniture. Considered the most valuable tropical hardwood because of its high natural oil content, we employ best-in-class construction techniques that include kiln drying, finger joinery and box joints. Together, all of this ensures that your product will withstand prolonged outdoor exposure. All of our teak is responsibly harvested from reforested teak plantations.

FINISH
Teak is a low maintenance wood, and we recommend that you allow your furniture to age naturally. Its close, tight grain and abundance of natural oils make teak hard-wearing and highly resistant to rotting, sunshine, snow and rain. After prolonged exposure, teak's original golden honey color will begin to transition to a soft and silvery gray.

CARE & MAINTENANCE - FRAMES
Minimal maintenance is required to keep teak wood looking good. Periodically clean your furniture with a teak cleaner, available through your local LANE VENTURE retailer. Because of the high oil content of this wood, teak shouldn’t be painted or sealed: it won’t adhere properly and will eventually peel off. If you wish to keep the warm golden color of new teak, you will need to routinely re-apply a teak sealer for continuous coverage.
WOVEN
PRODUCT CARE

FRAME CONSTRUCTION
Each piece of synthetic wicker is hand woven by experienced artisans over a strong powder-coated aluminum frame. LANE VENTURE products feature the highest grade of durable, UV-resistant polyethylene (PE) fibers. Fixtures and jigs specially designed for each collection are used to assure uniform frame sizing during production.

FINISH
By combining synthetic fibers of differing textures and unique colors during the weaving process, LANE VENTURE is able to achieve a unique richness and depth that gives each collection the look and feel of a natural product. And since the color goes all the way through the fiber, you can be assured that it will remain consistent for many years.

CARE & MAINTENANCE - FRAMES
Minimal maintenance is required to keep your hand-woven synthetic wicker furniture looking fresh. Periodically wash with soft cloth, mild soap and water. Rinse well. Dry with a soft towel or let air dry. Avoid harsh abrasive cleaners.
