Cushions

Trex Outdoor Furniture cushions bring additional comfort and style to your outdoor furniture and add welcome pops of color to your porch, patio, or deck. Our outdoor cushions are covered in soft, durable outdoor performance fabric that's easy to clean and resistant to weather and fading.

With a variety of color options available, you're sure to find a cushion (or a few) that will complement your outdoor decor.

Caring for Your Cushions

» Brush off dirt

- It's best to brush or rinse off any loose dirt and debris before it has a chance to become embedded in the fabric.

Performance fabrics do not promote mildew growth, but mildew may grow on dirt and other foreign substances that are not removed from the fabric.

» Wipe up and clean spills right away

- Wipe up spills and wash impacted areas with a homemade mixture of ¼ cup of mild soap per gallon of lukewarm water.
- Rinse the areas thoroughly and allow them to air dry completely.
- Standing cushions on their sides will allow them to dry faster.

Air dry your cushions and pillows only; do not dry clean.

Do not use heat, hot water, harsh detergents, hard bristle brushes, or allow your cushions to be submerged and/or left to soak in water.

» Make your cushions last

- If possible, flip your cushions periodically to even out the wear on each side.
- Store your cushions in a dry, covered area when not in use.
